TITLE : DISPLAY ARTICLE PROTECTING  
SHEET

ABSTRACT : PROBLEM TO BE SOLVED: To provide a display article protecting sheet preventing the fading of a display article caused by ultraviolet rays and also reducing the ignitability or staining properties of the display article.

SOLUTION: The display article protecting sheet is constituted by laminating a fluorine type olefinic film on a base material film containing an ultraviolet absorber as a surface layer using an adhesive, or without using the adhesive or laminating the fluorine type olefinic film on the base material film as a surface layer using an ultraviolet absorbing adhesive.
